

Midnight Vinyl Music Player

A custom-built, artist-themed web music player

Project Overview

Midnight Vinyl is a personalized, browser-based music player built entirely from scratch using HTML, CSS, and JavaScript. It features artist-specific themes, looping background visuals, and a JSON-driven playlist structure.

Key Features

- Artist-themed UI: The Weeknd, Frank Ocean, and Michael Jackson
- Looping video backgrounds for immersive experience
- Functional play/pause, skip, and shuffle controls
- Dynamic playlist loading via JSON data
- Responsive layout for desktop

Tech Stack

- HTML & CSS for layout and design
- Vanilla JavaScript for interactive logic
- Git & GitHub for version control
- JSON for music data structure

Video Assets

Due to GitHub's file size restrictions, video files such as 'mjbkg.mov' are excluded from the repo. For a full-featured demo with video background support, please contact the developer directly.
